# OFF-ROAD MODELS

Designed for low-profile towing across the toughest terrains, the OPUS Camper AIR tent inflation technology and hybrid designs make it easy to quickly expand your camper into a spacious off-grid vacation home.

The OPUS Camper line features four off-road models designed to fit different lifestyles. Developed with TOUGH LUXURY in mind, every model comes fitted with the same robust off-road package including an independent trailing arm suspension, dual shocks, coil springs, an articulating hitch, and a full outdoor kitchen that slides out with a 4-burner stove and hot water sink.
